Real star A72 500 SERIES FSX/P3D - Carenado Garmin Support Center is where you will find answers to frequently asked questions and resources to help with all of your Garmin products. Garmin Support Review: Carenado - A72-500 Series. The A72-500 Series is just the type of aircraft that Carenado is well known for, and a perfect regional turboprop for flightsim use. Reviewer Alex Dickinson really likes the model and enjoys flying it, though it's not quite perfect. It's an interesting plane to fly and features an excellent sound package, lots of liveries and other details. FlightSim.Com - Review: Carenado - A72-500 Series As an additional option for remote mounting, a combined air data and attitude heading reference system (ADAHRS) is available, or AHRS and ADC units are available separately. For aircraft already equipped with the original G500 series flight displays, full TXi compatibility with existing system sensors makes for an easy, cost-effective upgrade path. Garmin G500 TXi | Touchscreen Flight Displays Whelen ORION 650 Series LED Wingtip Position / Strobe Light Assembly Whelen Engineering is proud to introduce the ORION 650 Series of FAA/TSO approved LED aviation lighting.
