ancient grain, varying from one culture to the next, was defined as the weight of a designated number of dry wheat (or other edible grain) kernels taken from the middle of the ear. Grain | unit of weight | Britannica Spelt (*Triticum spelta*), also known as dinkel wheat or hulled wheat, is a species of wheat that has been cultivated since approximately 5000 BC.. Spelt was an important staple food in parts of Europe from the Bronze Age to medieval times. Now it survives as a relict crop in Central Europe and northern Spain, and has also found a new market as a "health food". Spelt - Wikipedia Before this time, grains and wheat were ground in whole form, often with stones, and the flour still contained all the components of the whole grain. It

was now possible to separate the parts of the whole grain and use just the starchy endosperm to create an inexpensive and very finely ground white flour (similar to most flour used today).
