architecture, the built structures of Japan and their context. A pervasive characteristic of Japanese architecture is an understanding of the natural world as a source of spiritual insight and an instructive mirror of human emotion. Learn more about the history and characteristics of Japanese architecture. Japanese architecture | History, Characteristics, & Facts ... Contemporary Japanese architecture combines a rich mix of traditional design practices and western modern aesthetics. The dialogue between these two is present in the integration of time-honored ... Architecture from Japan | ArchDaily Japanese architecture (建築, Nihon kenchiku) has been typified by wooden structures, elevated slightly off the ground,

with tiled or thatched roofs. Sliding doors were used in place of walls, allowing the internal configuration of a space to be customized for different occasions. People usually sat on cushions or otherwise on the floor, traditionally; chairs and high tables were not ... Japanese architecture -

Wikipedia Contemporary architecture is the architecture of the 21st century. No single style is dominant; contemporary architects are working in several different styles, from postmodernism and high-tech architecture to highly conceptual and expressive forms and designs, resembling sculpture on an enormous scale. The different styles and approaches have in common the use of very advanced technology and ... Contemporary
