Phase One Aerial Cameras Industrial Phase One Industrial, a division of Phase One A/S, provides medium format high-resolution imaging systems for industrial markets. Phase One Industrial cameras are used for aerial imagery to machine vision and cultural heritage preservation. Phase-One industrial Cameras - High Resolution Aerial ... The Phase One iXM cameras are the world's smallest and lightest integrated digital medium format aerial cameras. Our aerial photography cameras and aerial survey camera design undergoes rigorous testing for vibrations and temperature ranges. Digital Medium Format Cameras | Aerial Cameras | Phase One ... Phase One Industrial continuously expands its offering by developing new solutions and products that meet the needs of the industrial and aerial imaging market, and help customers around the world to increase productivity by reducing time and costs. Aerial Solution 280MP Aerial Solution 190MP Aerial Solution 150MP/ 100MP Oblique Imagery Camera - Phase-One industrial Cameras The powerful and fully integrated Phase One 190MP Aerial Camera Solution delivers large-format metric camera performance. Thanks to a dual-lens metric camera, its large frame size enables customers to execute mapping projects faster and more efficiently. Phase One 190MP Aerial Solution iXU-RS1900 Aerial Camera Aerial Solution | 3D City Modeling camera | Phase One ... Phase One 280MP Aerial Solution. The 280MP Aerial Solution offers the highest image capture rate and dynamic range, increasing overall quality and accuracy of the final photogrammetric products. It

provides a large format option, that is compact and lightweight system for use in a wide range of aircraft. The 280MP Aerial solution comprises of iX Controller, GNSS/IMU receiver (POS AV series), Somag gyro-stabilized mount (DSM 400), the Phase One flight planning and management software iX Plan ... Large-format Imagery | 280 megapixel | Phase One Industrial Integrated Phase One Industrial cameras in combination with Riegl or Optech LiDAR sensors for a combined solution. IGI designs systems for a variety of aircraft, from large airplanes and helicopters to ultralight airplanes and gyroplanes or even remote piloted aircraft systems (RPAS, UAV). Aerial Photography - Phase-One industrial Cameras High-resolution Aerial Cameras and Solutions for Large Surface Coverage of Aerial Mapping, Surveying, and Inspection Applications. Phase One Industrial provides innovative solutions for precise and simplified aerial mapping, surveying, and inspection missions. With an easy-to-integrate product range, we provide accurate, and consistent aerial data that enables an easy execution of photogrammetry projects with high-resolution images for 2D and 3D applications. Phase One Industrial Phase One Industrial's cameras provide invaluable aerial-imagery data that enables predictive maintenance for inspection missions of power lines, wind turbines, roads, bridges, and pipelines as well as forestry and agriculture. Our solutions increase the speed and precision of data collection and reduce the costs and the risky operations of ground teams. UAV Cameras | Phase One UAV Phase One Industrial Aerial Solutions. Coverage. We at Phase One Industrial continuously expand our offering and design the exact solutions that meet the requirements of the developing industrial and aerial imaging market. Phase One Industrial Aerial Solutions - Phase One Cameras ... Focusing on the Small Details, Seeing the Large Picture. Phase One Industrial offers precision-driven solutions that simplify mapping and surveying processes. With a diverse and easy-to-integrate line of products, we provide unlimited, accurate, and reliable aerial data that enables users to effortlessly execute photogrammetry and mapping missions, capture high-resolution images, and create 2D and 3D maps. Mapping Camera | Oblique Photogrammetry | Phase One Survey Phase One presents the company's flagship full frame ultra-high resolution aerial camera with an image size of 150MP. The iXM-RS cameras allow perfect image quality in a large range of applications. iXM-RS150F/ iXM-RS100F Superior Accuracy and Efficiency 3D Mapping Camera - Phase-One industrial Cameras Testing Times - Phase One Industrial iXM-100 Camera is Proven Best for UAV Bridge Inspection Keystone Aerial tested three aerial cameras integrated with its UAV to see which provided best results during the Tacony-Palmyra Bridge Inspection Project. There was a clear winner - from 130ft away! Reducing Costs and Safety Concerns Testing Times - Phase One Industrial iXM-100 Camera is ... Olivia Link, Phase One Industrial Sales Manager Aerial Systems & Simon Grandin, M.Sc. SimActive Photogrammetry Specialist, will discuss the major advantages of using metric cameras for mapping applications. This training session will discuss how to process data collected by Phase

One sensors with Correlator3D photogrammetry software. Phase One Industrial Webinars The Phase One Industrial 280MP Aerial Solution consists of an iXM-RS 280F large format camera, Applanix GNSS/IMU receiver (POS AV series), Somag gyro-stabilized mount (DSM 400), Phase One iX Controller and iX Flight Management software. It is unprecedented in its image quality, operational flexibility, reliability and affordability. Phase One Industrial's 280MP Aerial Solution | 2020-06-26 ... Phase One Industrial developed the iXM series - revolutionary and uniquely designed cameras for UAV-based aerial imagery that redefine the boundaries of technological innovation. The iXM 100MP and iXM 50MP are high-productivity metric cameras with a range of specially designed RSM lenses. Phase One Industrial and Acecore Announce Integration of ... Airbus Defence and Space acquired Phase One Industrial iXM-100 cameras to be integrated as a payload in the ALTAIR airship. The airship's large payload capacity allows for more than one sensor system for 3D mapping and was used recently for a pilot project between Airbus, vaireco and MVV Energie AG to generate high-definition thermal 3D models using a combination of infrared (IR) and RGB data captured simultaneously. AeroInspekt - casestudies.industrial.phaseone.com During this webinar Phase One Industrial will cover all the benefits of the complete large format image solution, through to the single aerial cameras for manned aircraft, UAVs and ground solutions. Phase One Industrial Aerial Imaging: Outstanding ... Revolutionary and uniquely designed cameras for UAV-based aerial imagery Zoom in from Hundreds of Feet in the Air Phase One

Industrial cameras offer backside-illuminated CMOS sensors with high sensitivity, fast capture rates, and ultra-high resolution. Phoenix Vision360 - Phase One The Phase One Industrial camera was integrated with the aircraft's Novatel dual frequency GPS/INS system, operating with a Honeywell IMU, enabling each photograph to be stamped with precise aircraft position, altitude, and roll/pitch/yaw. Tracking Wildlife With a Custom-built Aerial Data ... Phase One Industrial developed the iXM series - revolutionary and uniquely designed cameras for UAV-based aerial imagery that redefine the boundaries of technological innovation. The iXM 100MP and iXM 50MP are high-productivity metric cameras with a range of specially designed RSM lenses.
