31-NF 26 - uspnf.com Use— To attain the degree of  
precision required in many Pharmacopeial assays  
involving volumetric measurements and directing that  
a quantity be “accurately measured,” the apparatus  
must be chosen and used with care. A buret should be  
of such size that the titrant volume represents not less  
than 30% of the nominal volume. Where less than 10  
mL of titrant is to be measured, a 10-mL buret
